OBJECTIVE

Enthusiastic and dedicated fresher with a passion for full-stack web development. Eager to contribute effectively to a dynamic software development team, learn collaboratively, and grow while delivering high-quality solutions.

EXPERIENCE

MEAN/PEAN STACKS

July 2023 -Present

Internship

I don't have any prior experience. I completed my college in July 2023. So, I am a fresher. However, I have been learning the MEAN stack and PEAN stack for the last 2 months. I've been learning from my cousin who has 10 years of experience. He works at a Zoho partner company. I have mentioned him as a reference. He has been teaching me Angular, Node.js, and integrating applications with Zoho and Salesforce.

I have also learned CRUD operations in Node.js with MongoDB. Additionally, I have developed a SaaS model application similar to a fantasy cricket app for making predictions.

INTERESTS:

- Exploring new technologies and frameworks.
- Problem-solving and algorithmic challenges.
- Database architecture.
- Learning about UX/UI design principles.
- Testing automation.

SKILLS
